Naib Canselor Vice Chancellor

Pencapaian dan kejayaan USIM pada tahun 2006 ini merupakan hasil komitmen padu dan kerjasama erat seluruh warganya. Saya yakin ia akan berterusan bagi tahun 2007 dan tahun-tahun seterusnya. Pada tahun 2006 juga USIM telah beroperasi sepenuhnya di kampus tetap Bandar Baru Nilai, Negeri Sembilan Darul Khusus dengan kekuatan kakitangan pentadbiran dan akademik melebihi 700 orang dan jumlah pelajar melebihi 2,500 orang.

Pada sesi akademik 2006/2007 sebanyak 3 program baru peringkat sarjana muda kepujian ditawarkan. Program-program tersebut ialah Sarjana Muda Sains Dengan Kepujian (Matematik Kewangan), Sarjana Muda Perakaunan Dengan Kepujian dan Sarjana Muda Pembedahan Pergigian. Manakala program baru peringkat sarjana dan doktor falsafah pula menyaksikan penawaran Program Sarjana Sains dan Doktor Falsafah dalam bidang Sains dan Teknologi.

Penawaran program Sarjana Muda Pembedahan Pergigian juga telah mewujudkan sebuah lagi fakulti baru pada sesi akademik ini iaitu Fakulti Pergigian.

Pada sesi pengajian 2006/2007 juga, turut diperkenalkan 3 lagi program baru iaitu Tamhidi Perakaunan dan Muamalat dan Tamhidi Pergigian yang dijalankan dalam tempoh 1 tahun. Penubuhan Pusat Tamhidi ini bertujuan untuk menyediakan pelajar bagi kemasukan ke program Ijazah Sarjana Muda dalam bidang-bidang tertentu di mana calon bagi program ini terdiri daripada Lulusan Sijil Pelajaran Malaysia yang mendapat keputusan cemerlang.

Mulai tahun 2005, Unit Jaminan Kualiti dan Pembangunan Program telah ditubuhkan dan diletakkan di Bahagian Akademik. Penubuhan ini telah membantu Fakulti Ekonomi dan Muamalat mendapatkan pengiktirafan daripada Jabatan Perkhidmatan Awam (JPA) terhadap program Sarjana Muda Pentadbiran Muamalat dengan Kepujian.

Bersesuaian dengan perkembangan program akademik USIM, bilangan kakitangan akademik yang bercuti belajar pada tahun 2006 telah meningkat melalui Biasiswa SLAB dan juga Biasiswa USIM. Pada masa ini, terdapat kakitangan USIM yang sedang melanjutkan pengajian di luar negara seperti di United Kingdom, Syria, Morocco, Amerika Syarikat, New Zealand, Australia dan juga Jordan selain daripada di Universiti-universiti tempatan.

Para kakitangan akademik USIM juga telah memberikan kerjasama yang baik dalam merencanakan aktiviti penulisan di USIM. Ini kerana USIM berhasrat menjadi salah sebuah IPTA yang berjaya dalam penghasilan dan penerbitan karya-karya ilmiah yang bermutu. Sebanyak 14 buah buku telah dilancarkan sepanjang tahun 2006.

Perjalanan aktiviti fakulti-fakulti sepanjang 2006 penting dalam perkembangan akademik USIM. Penubuhan fakulti baru, penawaran program baru, pelaksanaan program khusus untuk meningkatkan tahap akademik dan pembangunan sahsiah pelajar, penganjuran seminar di peringkat kebangsaan dan antarabangsa menyumbang kepada pembangunan akademik dan peningkatan sahsiah pelajar. Sehubungan itu fakulti telah merangka pelan pembangunan mahasiswa yang meliputi usaha pembangunan akademik dan sahsiah dengan kerjasama beberapa unit/bahagian di USIM seperti Bahagian Hal-ehwal Pelajar dan Bahagian Akademik. USIM berhasrat membangunkan modal insan yang berketrampilan tinggi, berfikiran kritis dan memiliki penampilan unggul melalui penerapan kemahiran insaniah yang berterusan semasa mereka berada di USIM. Ia penting agar graduan yang dilahirkan benar-benar berkualiti selaras dengan hasrat USIM, KPT dan Negara untuk menjadi Pusat Pengajian Ilmu yang terulung sama ada di peringkat tempatan mahupun antarabangsa.

LAPORAN NAIB CANSOLOR

Vice Chancellor Report

The achievement and success of USIM in 2006 was a product of high commitment and cooperation of all in USIM. I am confident that this will continue for the year 2007 and beyond.

In 2006, USIM has begun its operation fully in the permanent campus in Bandar Baru Nilai, Negeri Sembilan Darul Khusus with the strength of more than 700 academic and administration staff and 2500 students.

In the 2006/2007 academic session, three new degree programmes were introduced. The programmes were Bachelor of Science with Honours (Finance Mathematics), Bachelor of Accounting with Honours and Bachelor of Dental Surgery. In addition, for postgraduate studies, USIM has introduced its Masters and PhD programmes in Science and Technology.

A new faculty, Faculty of Dentistry; was established in this academic session with the introduction of Bachelor of Dental Surgery.

All the 16 programmes offered during the 2006/2007 session is a 4 year study, whereas 3 other programmes; Bachelor of Syariah and Law with Honours, and Bachelor of Medicine and Surgery, and Bachelor of Dental Surgery, require a 5 to 6 years course of study.

During the 2006-2007 session, 2 new programmes; namely, Tamhidi for Accounting and Muamalat and Tamhidi for Dentistry were conducted as a 1 year study programme. The Tamhidi Centre was established to cater for students entering the Bachelor Programmes in specialized fields; recruiting candidates who have excelled in the Sijil Pelajaran Malaysia (SPM) examinations.

Beginning 2005, the Quality Assurance and Program Development Unit was founded and resides under the administration of the Academic Division. This unit has assisted the Faculty of Economics and Muamalat in getting the accreditation from the Public Services Department (JPA) for their Bachelor of Muamalat Administration with Honours.

In line with the expansion of USIM academic programmes, the number of academic staff on study leave in 2006 has also increased through the SLAB Scholarship as well as USIM Scholarship programmes. At this moment, a number of USIM staff are furthering their studies overseas such as United Kingdom, Syria, Morocco, the United States of America, New Zealand, Australia and Jordan, besides our local universities.

USIM's academic staff have also given their tremendous cooperation in boosting the university's publishing activities in realizing the aim of establishing USIM as a leading university in academic publications. In 2006 alone, 14 new books were launched by the university.

Activities that were carried out in 2006 were important in the academic development in the university. The setting up of new faculties and programmes, implementations of specific courses and organizations of local and international seminars, were among the initiatives carried out in upgrading the academic standards and character of the students. With the joint-effort between the Students' Affairs and the Academic Department, each faculty planned its own "Graduate Development Plan" that aims to develop the academic and personality of their students. USIM aims to develop first class citizens who possess credible traits, critical acumen and charismatic personality thorough its character-building mechanisms during their study at USIM. This is crucial so as to produce quality graduates that fulfils USIM's, MOHL's and the Government's quality standards and to emerge as a renowned university, both locally and internationally.

Pusat Pengurusan Penyelidikan dan Persidangan (PPPP) ialah sebuah pusat yang menyelaraskan pelbagai aktiviti penyelidikan dan persidangan di peringkat USIM yang bertanggungjawab secara langsung terhadap pengurusan penyelidikan dan tatacara kewangan serta menjadi medium penyaluran maklumat penyelidikan dan persidangan untuk tujuan rujukan para kakitangan akademik di USIM.

Sehubungan itu, pada tahun 2006 banyak usaha dipertingkatkan bagi menggerakkan penyelidikan bersifat fundamental, penyelidikan pantas dan sebagainya yang telah diluluskan oleh Jawatankuasa Penyelidikan Universiti. Selain itu, beberapa persidangan di peringkat antarabangsa dan kebangsaan telah berjaya diadakan pada tahun 2006.

Institut Pengurusan dan Penyelidikan Fatwa Sedunia (INFAD) telah mengadakan perbincangan dengan Pengarah Rabiah Islami bertujuan untuk memperkenalkan INFAD sebagai sebuah Pusat Kecemerlangan berkaitan Fatwa yang bertujuan untuk menjalankan penyelidikan berkaitan fatwa dan mengumpul koleksi-koleksi fatwa dari dalam dan luar Negara. INFAD juga telah menjalin kerjasama dengan Timbalan Pengarah Majma' Fiqh Islami India dalam penyelidikan dan pertukaran maklumat berkaitan fatwa. Sehubungan jemputan daripada Menteri Hal Ehwal Islam Kuwait, pihak Kuwait telah bersetuju untuk mengadakan MoU dan menjalin kerjasama dengan INFAD terutama dalam bidang penerbitan, penyelidikan dan pertukaran maklumat berkaitan fatwa.

Sehingga kini, INFAD telah menerima hampir keseluruhan kumpulan fatwa dari negeri-negeri Semenanjung Malaysia dengan mendapat kerjasama yang baik daripada para Mufti dan Jabatan-jabatan Mufti. INFAD juga sedang menambahkan koleksi fatwanya dengan mendapatkan bahan-bahan ilmiah dan koleksi fatwa daripada Negara-negara ASEAN yang mana diperluaskan ke seluruh dunia.

Kemajuan negara bergantung kepada banyak faktor. Pertama, negara memerlukan kepemimpinan mantap dan berkesan. Ini adalah peranan Kerajaan yang perlu menetapkan dasar dan strategi secara bijaksana dengan mengambil kira matlamat negara serta kewujudan semua sumber dan keadaan persekitaran. Dasar dan strategi, walaupun baik tidak akan berkesan jika tidak disokong oleh semua sektor masyarakat. Pegawai kerajaan adalah golongan utama memainkan peranan dalam memastikan dasar dan strategi dilaksanakan dengan baik dan sempurna.

Within the academic circle, the Center of Research and Conferences (PPPP) is the hub that manages all research and conference activities in USIM and is responsible for the financial management pertaining to these activities. It also acts as the transmitter of information and reference centre for academic staff in these areas.

Throughout the year 2006, USIM's Research Panel has endorsed various types of research and has successfully organized a few local and international conferences.

Also in 2006, an important arm of the university, the Institute of World Fatwa Management and Research (INFAD) has held a discussion with the Director of Rabiah Islami, with the purpose of introducing INFAD as a Centre of Excellence on Fatwa, which is responsible in carrying out research on fatwa and compiling local and international fatwa. INFAD has collaborated with the Deputy Director of Majma' Fiqh Islami India in researching and exchanging information on fatwa. Also, INFAD has received an invitation from the Kuwait Islamic Affairs Minister, to sign an MOU and work together, especially, in publishing, researching and exchanging information on fatwa.

Until today, INFAD has received almost all fatwa groups from the states in Peninsular Malaysia. It has also received great cooperation from the 'Muftis' and 'Mufti' Departments. INFAD is also in the process of adding on to its fatwa collections from academic materials and fatwa collections of ASEAN countries, which will also extend to others from around the world.

There are a few vital factors that determine the development of a country. Firstly, a country needs a firm and effective leadership. Along this light, the government plays a role in specifying the effective principles and strategies based on the country's target, the sources available and the surrounding environment. However, the principles and strategies will not be successful if it is not well-supported by all the citizens. Thus, it is the government servants who are the key-players in ensuring the principles and strategies are implemented well and effectively.

It is evident that the success and progress of a nation and country rest critically on its human capital's abilities and capabilities. The act of determining good policies, strategies or plans, calls for knowledge, abilities and ingenuity. The country's progress depends on its nation's abilities. It is upon the realization of these facts, that we would stand to value the focus on developing our human capitals, which has been incessantly reiterated by the Prime Minister. We can always devise other aspects of development, however, it is our nation's capabilities that will determine its success.

Developing human abilities is a continuous effort which is not confined to a certain period only. It requires a long-term strategy in fulfilling future necessities.

"...Sehubungan itu, pada tahun 2006 banyak usaha dipertingkatkan bagi menggerakkan penyelidikan bersifat fundamental, penyelidikan pantas dan sebagainya yang telah diluluskan oleh Jawatankuasa Penyelidikan Universiti. Selain itu, beberapa persidangan di peringkat antarabangsa dan kebangsaan telah berjaya diadakan pada tahun 2006."

Jelas kemampuan serta kebolehan manusia menentukan sejauh mana sesuatu bangsa dan negara akan berjaya dan maju. Menentukan dasar, strategi atau perancangan baik itu memerlukan pengetahuan, kemampuan dan kebijaksanaan. Tahap kemajuan negara bergantung pada kemampuan rakyatnya. Jika kita memahami hakikat ini, kita pasti menghargai tumpuan kepada pembangunan modal insan yang berulang kali dinyatakan Perdana Menteri. Kita boleh merancang aspek pembangunan lain, tetapi pencapaian itu bergantung kepada kemampuan modal insan negara.

Membina keupayaan insan adalah satu proses berterusan. Ia bukan program khas bagi tempoh tertentu. Pembangunan modal insan memerlukan perancangan jangka panjang untuk keperluan masa depan.

Sehubungan itu, bagi tahun 2006, sebanyak 45 kursus telah dilaksanakan oleh Unit Latihan untuk semua kakitangan USIM termasuk latihan ICT dengan kerjasama Pusat Pengurusan Ilmu dan Teknologi Maklumat (PPITM). Latihan ini adalah bertujuan untuk membentuk sikap, kemahiran dan pengetahuan di kalangan kakitangan USIM itu sendiri. Selain daripada mengikuti kursus dalaman yang dianjurkan oleh Unit Latihan sendiri, kakitangan USIM juga dihantar untuk berkursus di agensi awam yang lain seperti Institut Pentadbiran Awam Negara (INTAN), Kementerian Pelajaran, IPTA dan lain-lain agensi yang diiktiraf dan sesuai. Selain daripada itu, kakitangan USIM juga dihantar berkursus di agensi swasta terutama bagi kursus yang memerlukan kemahiran teknikal yang tinggi. Usaha ini dijalankan bagi melahirkan kakitangan yang berdedikasi, cekap, bertanggungjawab, dan berdaya saing.

Satu kejohanan Debat Bahasa Arab IPT ASEAN telah diadakan di USIM. Pertandingan anjuran bersama Majlis Debat Universiti-universiti Malaysia (MADUM) dan USIM sebagai tuan rumah telah berlangsung di mana 18 pasukan debat dari 11 IPT tempatan dan luar Negara mengambil bahagian dalam kejohanan debat tersebut. Penganjuran Kejohanan Debat Bahasa Arab IPT ASEAN ini secara tidak langsung menjadikan USIM sebagai pelopor kejohanan berkenaan di peringkat ASEAN dan antarabangsa. Melalui kejohanan ini, ia memberi peluang kepada mahasiswa mempamerkan bakat dan kemahiran berdebat dalam bahasa Arab, disamping melahirkan generasi muda yang mempunyai kemahiran komunikasi tinggi dalam bahasa berkenaan.

USIM dan Malaysia Airports (Sepang) Berhad telah menandatangani memorandum perjanjian bagi program duta kecil di KLIA. Melalui perjanjian dua hala ini telah memberi peluang kepada mahasiswa dan mahasiswi USIM untuk menimba pengalaman dalam dunia kerjaya sebagai duta kecil di KLIA. Selain pendedahan kerjaya, program ini turut membantu graduan dalam mempertingkatkan keupayaan menguasai bahasa Arab dan kemahiran soft skills yang lain. Graduan yang terpilih telah ditempatkan di beberapa lokasi strategik di KLIA dan ditugaskan untuk membuat pengumuman berkaitan penerbangan di bilik konti dan berperanan sebagai penyambut

"...Throughout the year 2006, USIM's Research Panel has endorsed various types of research and has successfully organized a few local and international conferences...."

For the year 2006, 45 courses have been carried out by the Training Unit for all USIM staff including ICT courses, in collaboration with the Centre for Knowledge Management and Information Technology (PPITM). The objective of this course is to develop positive attitude, skills and knowledge among USIM staff. Besides participating in internal courses organized by the Training Unit, USIM staff are also sent for courses at government agencies like National Institute of Public Administration (INTAN), Ministry of Education, the local government higher institutions and other established and recognized agencies. Other than that, they are also sent for courses at private agencies especially with regards courses that require high technical skills. All these are carried out to create dedicated, skillful, responsible and competitive staff.

As for student development, the ASEAN Interschool Arabic Debate was recently held in USIM. This event was jointly organized with the Malaysian Higher Learning Institution Councils (MADUM), where USIM played host. 18 teams took part in the event, of which 11 teams were from the local universities and eight (8) from international universities. By organizing such events, USIM has indirectly made its pioneer debut in holding a prestigious competition, particularly at ASEAN and international level. Through such events, many bright and proficient young talents have been discovered and they were given the opportunity to polish their debating skills in the target language.

This year, USIM and Malaysia Airports (Sepang) Bhd has signed an MOU for the KLIA Ambassadors Programme. This joint-venture has exposed USIM students to the real industry environment; whereby these students had the opportunities to play host to international tourists, particularly those from the Middle-Eastern Countries. Noted as a two-way learning process, this programme has even helped students in terms of enhancing their capabilities in mastering the Arabic language and few other soft skills, like managing people, for instance. Basically, these selected students were placed at several strategic locations in KLIA and they were assigned to give announcements on the flight details (departure, arrival) from a control room as well as offering assistance and giving directions around KLIA. The highlight of this programme was the official launching of The KLIA Ambassador for Arabic and Mandarin Programme by Y.B. Dato' Donald Lim Siang Chai, the Deputy Tourism Minister. This event was marked as a success and made possible through the collaboration of USIM and Lim Kok Wing University College and proved to be the early preparation towards Visit Malaysia Year 2007.

pelancong serta memberi bantuan samada dalam menunjuk arah di KLIA. Kemuncak program duta kecil pada tahun 2006 ini telah membawa kepada majlis pelancaran Program Ambassador Arab dan Mandarin oleh Y.B Dato' Donald Lim Siang Chai, Timbalan Menteri Pelancongan yang dianjurkan oleh Lembaga Penggalakkan Pelancongan Malaysia dengan kerjasama USIM dan Kolej Universiti Lim Kok Wing sempena persediaan Tahun Melawat Malaysia 2007.

Unit Kesihatan Pelajar telah ditubuhkan pada tahun 2006 untuk menjaga kebajikan pelajar. Penubuhan unit ini bertujuan untuk menangani masalah-masalah kecil kesihatan yang berlaku disamping dapat mengurangkan kos perubatan di kalangan pelajar. Buat masa ini, unit ini ditempatkan di bangunan sementara Bahagian HEP sebelum Unit Kesihatan Pelajar di Pusat Kemudahan Pelajar disiapkan. Lokasi sebenar Unit Kesihatan Pelajar ini adalah di bangunan tetap HEP yang dijangka siap pada tahun 2008.

One Stop Centre merupakan satu lagi kemudahan yang diadakan oleh USIM kepada pelajarannya. Objektif utama penubuhan pusat ini adalah untuk menggabungkan perkhidmatan daripada jabatan-jabatan utama yang sering berurusan dengan pelajar. Dengan adanya pusat ini, pelajar-pelajar boleh berurusan dengan cepat tanpa perlu bergerak ke lokasi-lokasi berasingan sekaligus menjimatkan masa pelajar. Jabatan utama yang memberikan perkhidmatan di One Stop Centre adalah Bahagian Akademik, Bahagian Hal-Ehwal Pelajar dan juga Jabatan Bendahari.

Majlis Konvokesyen Keempat USIM telah diadakan pada 26 Ogos 2006 di Dewan Canselor Tun Abdul Razak (DECTAR) dan telah dipengerusikan oleh Tuanku Canselor iaitu Duli Yang Maha Mulia Tuanku Najihah binti Almarhum Tunku Besar Burhanuddin, Tunku Ampuan Negeri Sembilan. Pada majlis tersebut, Tuanku Canselor telah berkenan menganugerahkan ijazah Doktor Falsafah, ijazah Sarjana, ijazah Sarjana Muda dengan Kepujian dan Diploma Siswazah kepada kumpulan graduan keempat USIM seramai 541 orang.

USIM juga telah menerima kunjungan daripada beberapa tetamu daripada pusat pengajian dan pihak swasta dari dalam dan luar negara untuk melihat perkembangan USIM dengan lebih dekat lagi. USIM juga turut serta dalam beberapa siri pameran dan ekspo bagi meningkatkan lagi citra USIM. Sepanjang tahun 2006, USIM telah menandatangani beberapa Memorandum Perjanjian (MoA) dan Memorandum Persefahaman (MoU) dengan pelbagai organisasi luar Universiti dalam mewujudkan hubungan dua hala yang lebih erat di dalam dan luar negara.

Kerajaan telah memperkenalkan banyak program pembangunan kualiti dalam meningkatkan kualiti penyampaian perkhidmatan sama ada dalam sektor kerajaan mahupun swasta. Kerajaan amat memandag berat tentang kualiti dan berharap semua agensi kerajaan termasuklah Institut Pengajian Tinggi membina, mengaplikasi dan mengamalkan sistem pengurusan kualiti yang berdasarkan piawaian MS ISO 9001 :

The Student Medical Unit was set up in 2006 with the objective of safeguarding the students' health and welfare. The idea of setting up such facilities has been put forth as a solution for the demanding outpatient cases involving USIM students. Furthermore, the unit is also expected to relieve high medical charges presently being charged onto students. At the moment, this unit operates from the present HEP office. Upon completion (Year 2008), the unit shall be based at the new HEP office.

The One Stop Centre is one of the facilities set up by USIM to cater for its students. The main objective of setting up the centre is to offer convenience to students by offering variety of services (registration, fees, etc) more effectively from just under one roof. With the establishment of the centre, students are able to solve their problems efficiently without the hassle of having to go to several different locations, hence, saving their time. The Academic Unit, Students Affairs and the Bursar are the main departments involved in providing services at the One Stop Centre.

USIM's Fourth Convocation was held on 26th August 2006 at Dewan Canselor Tun Abdul Razak (DECTAR) and the ceremony was presided by its Chancellor, Her Royal Highness, Tuanku Najihah Ibni Almarhum Tunku Besar Burhanuddin, the Tunku Ampuan of Negeri Sembilan. During the ceremony, Her Royal Highness had graciously presented the Doctorate Degree, Masters Degree, Bachelors Degree with honours and Graduate Diploma to the fourth batch of USIM's graduates comprising of 541 recipients.

USIM has also received visitors from other educational institutions as well as foreign and local private organizations to observe USIM's development. USIM has also participated in several exhibitions and expositions to improve its image.

Throughout 2006, USIM has signed several Memorandum of Agreement (MOAs) and Memorandum of Understanding (MOUs) with a number of organizations to create mutual ties locally and internationally. The government has introduced many quality development programmes to improve the quality of service delivery in the public and private sectors. The government places great emphasis on quality and hopes that all government agencies, including higher education institutes, would develop, apply and practice quality management systems according to the MS ISO 9001:2000 standards. In relation to this, USIM has already developed and practiced a quality management system in accordance to the International ISO standard. USIM has received and successfully retained until today, its MS ISO 9001:2000 with the scope; to prepare educational services at the undergraduate level, which encompasses programme's curriculum design and development. The application of quality management system ensures USIM's ability to continue providing services and products that fulfill customers' needs as well as adhering to the required guidelines.

In 2006, the Centre of Knowledge Management and Information Technology (PPITM) was established, in accordance to the restructuring of the Information Technology Unit. This has widen

2000. Sehubungan itu, USIM telahpun membina dan mengamalkan sistem pengurusan kualiti yang selaras dengan Piawaian ISO Antarabangsa. USIM telah berjaya mendapatkan MS ISO 9001 : 2000 dengan skop penyediaan perkhidmatan pendidikan di peringkat sarjana muda meliputi rekabentuk dan pembangunan kurikulum program dan masih berjaya mengekalkannya hingga kini. Pengaplikasian sistem pengurusan kualiti menjamin keupayaan USIM untuk terus menyediakan perkhidmatan dan produk yang menepati keperluan pelanggan dan juga keperluan garis panduan yang perlu dipatuhi.

Pusat Pengurusan Ilmu dan Teknologi Maklumat (PPITM) ditubuhkan dengan pengstrukturkan semula Unit Teknologi Maklumat pada tahun 2006. Pengstrukturkan ini telah meluaskan fungsi Unit Teknologi Maklumat yang tidak hanya tertumpu pada bidang teknologi sahaja tetapi merangkumi hal-hal berkaitan pengurusan dan perkembangan ilmu. Pengstrukturkan ini juga telah merubah struktur organisasi dan beberapa unit sedia ada dengan fungsi yang lebih luas dan menyeluruh.

Pertambahan kelajuan internet telah dipertingkatkan selaras dengan perkembangan USIM dari segi pertambahan kakitangan dan penyediaan prasarana kemudahan capaian internet yang lebih pantas. Semua aplikasi sistem Universiti dan capaian ke internet menggunakan rangkaian backbone gigabit. Rangkaian ke setiap bangunan dihubungkan menggunakan kabel fiber dan ditadbirkan secara berpusat. Kampus cawangan USIM di Pandan Indah juga turut dihubungkan ke kampus tetap di Nilai menggunakan talian litar suwa. Selain daripada itu, perkhidmatan wireless juga disediakan untuk kegunaan warga USIM. Perkhidmatan ini menggunakan kemudahan teknologi wireless berpusat yang terkini.

Perpustakaan USIM telah mengaplikasikan Sistem Perpustakaan Bersepadu (Virtua) mulai tahun 2006 bagi meningkatkan mutu dan kualiti pengurusan perpustakaan yang meliputi pelaksanaan fungsi-fungsi perolehan, pengkatalogan dan sirkulasi. Pencarian maklumat dan bahan juga beroperasi secara berkomputer yang boleh diakses melalui internet.

USIM telah beroperasi sepenuhnya di kampus tetap di Bandar Baru Nilai pada tahun 2006. Fakulti Sains dan Teknologi yang pada asalnya beroperasi di Bandar Baru Bangi juga telah berpindah ke Bandar Baru Nilai. Operasi USIM di Bandar Baru Nilai berjalan lancar dengan siapnya pembinaan dua buah bangunan fakulti yang menempatkan beberapa buah fakulti dan pusat pengajian. Manakala, pentadbiran USIM yang merangkumi Jabatan Canselor, Jabatan Pendaftaran dan Jabatan Bendahari telah ditempatkan di bangunan pentadbiran sementara iaitu di bangunan Pusat Pengurusan Ilmu dan Teknologi Maklumat. Perpustakaan USIM dan bahagian Hal-ehwal Pelajar telah ditempatkan di perpustakaan sementara dan bangunan sementara.

the function of the Information Technology Unit whereby it focuses not only on technological fields, but also other matters related to the management and development of knowledge. This exercise has also changed the organization structure and a few existing units to cater for wider and more holistic functions.

The internet speed has also been upgraded in line with the development of USIM in terms of increase in staff and facilities. All the application systems of this university, as well as the connection to the internet use the backbone gigabit network. This networking is connected via fibre cables and centralized. USIM's branch campus in Pandan Indah is also connected to the main campus in Nilai via leased lines. Besides that, wireless services are also provided to all USIM users. These services are accessible through the use of centralized wireless technology.

At present, the USIM library is utilizing the Integrated Library System (Virtua) since the beginning of 2006 in order to upgrade the standard and quality of library management. This includes the implementation of procurement functions, cataloging and circulation. Information and materials search are also carried out using computers connected to the internet.

USIM started its full operations at its main campus in Bandar Baru Nilai since 2006. The Faculty of Science and Technology that was previously in Bandar Baru Bangi has also moved to Bandar Baru Nilai. The operation of USIM in Bandar Baru Nilai runs smoothly with the completion of two faculty buildings that house a few faculties and centres. The administration of USIM that comprises of the Chancellory, the Registrar and the Bursar were placed at the temporary administration building, named as PPITM. As for the USIM library and Students Affairs Department, they are placed at the temporary library and temporary HEP building respectively.

A few new buildings have resumed construction in 2006, such as the administration building, science laboratory and the central store as well as the transport workshop, theatre halls 3 and 4, centralized utility building, basic infrastructure, landscaping and playing arenas. Almost all constructions were completed in 2006, except for the administration block, the six storey science laboratories and lecture halls 3 and 4, which are forecasted to complete by 2007.

The USIM Branch Campus in Pandan Indah caters for the Faculty of Medicine and Health Sciences, Faculty of Dentistry and SPADA Programme. The Faculty of Dentistry established in 2006, is located at Level 15 and 16 of Tower B, Pandan Indah, with the administration building placed at Level 15 and laboratories for tutorials at Level 16.

As a final note, I would like to extend my heartiest gratitude and thank you to all, especially to the Government, Ministry of Higher Learning, University's Board of Directors, staff and students, whom have rendered their perseverance, commitment and dedication to the prosperity of USIM.

Beberapa bangunan baru telah disambung pembinaannya pada tahun 2006 seperti bangunan pentadbiran, makmal sains dan stor pusat serta bengkel kenderaan, dewan kuliah pusat 3 dan 4, bangunan utiliti berpusat, infrastruktur asas, landskap dan padang permainan. Hampir kesemuanya dapat disiapkan dalam tahun 2006 kecuali bangunan pentadbiran, makmal sains 6 tingkat dan dewan kuliah pusat 3 dan 4 yang dijangka disiapkan sepenuhnya pada tahun 2007.

Kampus cawangan USIM di Pandan Indah menempatkan Fakulti Perubatan dan Sains Kesihatan, Fakulti Pergigian dan Program SPADA. Fakulti Pergigian yang ditubuhkan pada tahun 2006 beroperasi di aras 15 dan 16 Menara B, Pandan Indah. Pejabat pentadbiran ditempatkan di aras 15 manakala beberapa makmal untuk pengajaran akan ditempatkan di aras 16.

Akhir kata, saya ingin merakamkan penghargaan dan ucapan terima kasih kepada semua yang terlibat khususnya kepada Kerajaan, Kementerian Pengajian Tinggi Malaysia, Lembaga Pengarah Universiti, kakitangan dan pelajar yang telah bersungguh-sungguh, komited dan penuh dedikasi dalam memainkan peranan masing-masing untuk memajukan USIM.

INFAD has also taken a step forward to construct its own strategic planning in ensuring a continuous acquisition of fatwa collections; which also include purchasing a big amount of collections twice a year.

ICT and Fatwa Management System Division :

In line with the government's effort of encouraging the use of open sources software at the public sector, USIM in general, as well as specifically the ICT and Fatwa Management System Division of INFAD had taken a bold step in nominating its Fatwa Management System (FMS) at The Premier Information Technology Awards 2006 or known as APTM, the most coveted end-user award presented to recognize excellence in the use of ICT that was organized by the Malaysian Administrative Modernization and Management Planning Unit (MAMPU) with the cooperation of the Association of the Computer and Multimedia Industry of Malaysia (PIKOM).

INFAD had also hired 12 students of USIM to scan, edit and upload the fatwa related documents and materials into the FMS. This include not only materials and documents obtained from the National Fatwa Discourse Council, the various Mufti Departments in Malaysia as well as those from Indonesia, Brunei, Pattani but also from the renowned international fatwa organizations, councils and institutions like Fatwa Sirat –e-Mustaqeem, Fatawa Syarieyah, Qaradawi.net, Islam Online, Fatwa-Online, Ibrothaimeen and Islamweb.net, in which has resulted in the number of fatwa collections found in FMS to reach about 9,000 fatwas to date.

Ijtihad Development Division :

It has been the aim of the division to continuously strive for orchestrated work in producing excellent Manhaj Ijtihad from time to time. This is illustrated through the effort made in organizing the National Seminar of Manhaj Fatwa on the last 5-6th of December 2006 in which the division has successfully able to gather a number of renowned speakers and presenters to attend the seminar.

Bengkel Pengembangan Kakitangan Akademik

Sebagai fakulti yang baru ditubuhkan pada pertengahan 2005, adalah menjadi matlamat FPBU untuk memantapkan kredibiliti setiap kakitangan akademiknya. Oleh kerana kemahiran menjalankan penyelidikan adalah salah satu aspek yang amat penting bagi setiap kakitangan akademik di peringkat universiti, maka pendedahan pada peringkat asas sesuatu penyelidikan akan memantapkan lagi penyelidikan-penyelidikan yang bakal dijalankan di bawah naungan FPBU. Justeru, pada 30 Jun 2006 yang lalu, Bengkel Pengembangan Kakitangan Akademik FPBU telah di adakan di Nilai Spring Golf & Country Club. Kesemua Pensyarah dan tutor FPBU telah terlibat dalam bengkel ini.

PUSAT PENGAJIAN UMUM

Pusat Pengajian Umum (PPU) dahulunya dikenali sebagai Unit Pengajian Umum (UPU). Sebelum ini terdapat lima unit di bawah PPU, yang mana salah satu unit adalah Unit Ko-Kurikulum. Walaubagaimanapun, pada 19 Oktober 2006 Unit Ko-Kurikulum dipisahkan dari PPU, kini terdapat empat (4) unit yang ditempatkan di bawah PPU. Unit-unit tersebut adalah Unit Bahasa Inggeris (UBI), Unit Bahasa Arab (UBA), Unit Kursus Wajib Universiti (UKWU) dan Unit Pembelajaran Sepanjang Hayat (UPSH). Perkembangan terkini PPU adalah satu unit baru yang kini diletakkan di bawahnya iaitu Unit Latihan Industri (ULI). Ini menjadikan PPU kembali kepada lima (5) unit.

Unit Bahasa Inggeris

Unit Bahasa Inggeris (UBI) menawarkan kursus-kursus Bahasa Inggeris kepada pelajar dari setiap fakulti di USIM. Tenaga pengajar unit ini terdiri dari Pensyarah dan Tutor dari Fakulti Bahasa Utama (FPBU) dan juga Guru Bahasa UBI sendiri. Salah satu aktiviti adalah mengadakan Kursus Intensif Bahasa Inggeris kepada pelajar-pelajar Tahun 1 yang mendaftar di awal semester. Kursus ini bertujuan memberi pendedahan dan persediaan awal kepada pelajar baru sebelum bermulanya sesi perkuliahan.

Kursus Intensif Bahasa Inggeris telah dijalankan kepada pelajar Semester I Sesi 2006/2007 pada 5 hingga 9 Julai 2006. Kursus ini penting bagi mereka, memandangkan semua kursus di USIM dikendalikan dalam Bahasa Inggeris dan Bahasa Arab,

Unit Bahasa Arab

Unit Bahasa Arab (UBA) menawarkan kursus-kursus Bahasa Arab kepada pelajar dari setiap fakulti di USIM. Tenaga pengajar unit ini terdiri daripada Pensyarah dan Tutor dari Fakulti Bahasa Utama (FPBU) dan juga Guru Bahasa UBA sendiri. Salah satu aktiviti unit ini adalah menerima kerjasama dari fakulti-fakulti yang mengadakan bengkel Bahasa Arab kepada pelajar-pelajar. Pusat Tamhidi telah mengadakan Perkhemahan Bahasa Arab dengan kerjasama dari UBA pada 18 hingga 20 Ogos 2006 bertempat di Dusun Eco Resort. Tenaga Pengajar unit ini bertindak sebagai fasilitator untuk memberikan latihan dan kemahiran Bahasa Arab kepada pelajar.

GENERAL STUDIES CENTRE

The General Studies Centre (PPU) was previously known as the General Studies Unit (UPU). Initially, PPU was made up of five units, including the Co-curriculum Unit. However, on 19th October 2006 this unit was separated from PPU (to become a unit on its own), leaving the centre with only four remaining units under its administration. These are the English Language Unit (UBI), Arabic Language Unit (UBA), the Core University Courses Unit (UKWU) and the Life-Long Learning Unit (UPSH). As part of the centre's latest development, PPU has added a new unit, which is the Industrial Training Unit (ULI). Thus, this brings back a total of five units under the administration of PPU.

English Language Unit

The English Language Unit (UBI) offers English courses to students in every USIM faculty. The academic staff consists of lecturers from the Faculty of Major Language Studies (FPBU) as well as English language teachers from the centre itself. Among the programmes conducted is to hold Intensive English Course for the newly registered students of the first semester. The objective of this course is to give exposure and to prepare them to academic English before their lectures start.

Recently one such programme was conducted for the students of the first semester for the 2006/2007 session from 5th to 9th July 2006. This short programme is essential for them because all courses and tutorials in USIM are conducted in the English Language and Arabic.

Arabic Language Unit

The Arabic language unit (UBA) offers Arabic language courses to students from each faculty in USIM. The teaching staff consists of lecturers and tutors from Faculty of Major Language (FPBU) as well as the Arabic language teachers from the unit. One of the unit's functions is to collaborate with the faculties in organizing Arabic language camp for students. Tamhidi centre has organized Arabic Language camp in co-operation with the UBA unit from 18th -20th August in Dusun Eco Resort. The teaching staff in this unit acts as facilitators to provide training and develop Arabic language proficiency for students.

Sistem Pemilihan Majlis Perwakilan Pelajar(MPP) eUNDI

Sistem eUNDI secara rasminya telah digunakan buat pertama kalinya di Universiti ini pada 21 September 2006. Kaedah pengundian adalah dengan menggunakan komputer sepenuhnya oleh semua pengundi Universiti.

Sistem ini telah dijalankan serentak di tiga kawasan iaitu:

- 1) Di Bangunan Fakulti Perubatan Sains dan Kesihatan (FPSK), Pandan Indah
- 2) Di Bangunan Fakulti Kepimpinan dan Pengurusan (FKP), Kampus Nilai
- 3) Di Bangunan Fakulti Syariah dan Undang-undang (FSU), Kampus Nilai

Untuk menjayakan pelaksanaan sistem ini, semasa Pemilihan diadakan, sebanyak 19 terminal (komputer) telah disediakan untuk kegunaan Pemilih bersama 28 Pembaca Kad Pintar.

Sistem Kajian Pengesanan Graduan (Tracer Study Online)

Sistem ini disediakan oleh pihak Kementerian Pengajian Tinggi (KPT) dengan membuat penyelarasan kepada semua IPTA dan politeknik. Ianya telah digunakan sepenuhnya mulai 2 Mei 2006. KUIM telah berjaya menggunakan sistem ini melalui capaian online kepada semua bakal-bakal graduan USIM Siri Konvo 4/2006. Talian online untuk pelajar USIM telah dibuka mulai 26 Julai 2006 sehingga 11 September 2006.

Semua bakal graduan menggunakan laman web ini <http://graduat.mohe.gov.my/kpgv3/pengesananlogin.jsp> untuk memasukkan maklumat soal selidik yang dikeluarkan oleh KPT. Seramai 495 orang graduan USIM telah menggunakan Tracer Study Online.

Sistem AI-U'lyaa

Sistem ini dibangunkan bagi tujuan membantu Pusat Pengajian Siswazah (PPS) merekodkan maklumat berkaitan dengan pelajar-pelajar siswazah. Antara modul-modul yang terdapat dalam sistem ini adalah:

1. Modul Permohonan dan Kemasukan
2. Modul Biodata Pelajar
3. Kawalan Status Pengajian
4. Modul Pendaftaran Kursus
5. Modul Kemasukan Markah
6. Modul Peperiksaan
7. Modul Pemantauan Pelajar Penyelidikan

9. Modul Laporan dan Statistik

Kesemua modul di atas digunakan oleh pengguna sepenuhnya.

Sistem Permohonan Online**(Application for Graduate Admission)**

Sistem ini dibangunkan bertujuan untuk membolehkan pemohon yang berminat mengikuti program yang ditawarkan oleh Pusat Pengajian Siswazah (PPS) memohon secara online. Dengan adanya sistem ini, proses 'back end' yang melibatkan beberapa fungsi ditambah dalam Sistem AI-U'lyaa bagi memudahkan pihak pengguna mengawal penawaran dan sebagainya berkenaan permohonan online tersebut. Laporan dan statistik juga boleh dicapai dan dicetak oleh pengguna (admin dan fakulti) melalui sistem AI-U'lyaa client dan portal ewadi. Di samping itu,

Student Representative Council (MPP) Voting System (eUNDI)

eUNDI system was officially used on 21 September 2006. The voting method is to fully use the computer for all voters in the University.

The system was operationalise simultaneously in three areas:

- 1) Health and Science Medicine Faculty (FPSK) building, USIM's City Campus in Pandan Indah
- 2) Management and Leadership Faculty (FKP) building,
- 3) Law and Syariah Faculty (FSU) building, USIM's Main Campus, Bandar Baru Nilai.

To ensure the voting session ran smoothly, 19 terminals (computers) together with 28 smart card readers were provided for the voters.

The support system to e-UNDI system was developed to record and input the students information in the students' smart card. This operation was performed two weeks before the voting week until the voting day.

Tracer Study Online

This system is developed by the Ministry of High Education (MoHE) and with some consolidation with all public universities and politechnics. The system was fully used since 2 May 2006. KUIM has succeeded using this system through online access to all USIM graduation candidates for USIM Convocation Series 4/2006. The online for USIM students was opened from 26 July 2006 to 11 September 2006.

All USIM graduation candidates used the website at: <http://graduat.mohe.gov.my/kpgv3/pengesananlogin.jsp> to input the survey information provided by the MoHE. 495 USIM graduates used the Tracer Study Online.

AI-U'lyaa System

This system was developed for Centre for Graduate Studies (CGS) to record information related on USIM graduate students. Among the modules in this system are:

1. Application and Admission Module
2. Students Biodata Module
3. Studies Status Control Module
4. Course Registration Module
5. Marks Entry Module
6. Examination Module
7. Research Student Monitoring Module
8. Graduation Module
9. Statistics and Report Module

All modules is fully used by users.

Application for Graduate Admission

This system was developed to enable applicants to apply online for the programmes offered by CGS. This system will enable CGS to control the programmes offered and other back-end processes for the online graduate application. Report and statistics also can be accessed and printed by CGS and faculties through the client AI-U'lyaa system and also through USIM e-Wadi Portal. The coordination between the online and manual applications also has been done in AI-U'lyaa system. However, at the moment the usage of the graduate online application is currently unavailable. This graduate online application is expected to be publish on July 2007.

penyelarasan antara permohonan secara online dengan permohonan manual melalui Sistem Al-U'lyaa turut dibuat. Walaubagaimana pun, permohonan online ini masih belum digunakan dan perlu melalui beberapa peringkat kelulusan mesyuarat bagi memulakan penggunaannya.

Sistem MyAkrab

Sistem MyAkrab mula digunakan pada Disember 2005 sebagai tempoh percubaan sehingga bulan Mac 2006 bagi tujuan mengenalpasti sebarang masalah-masalah yang timbul. Bermula April 2006, Bahagian Pentadbiran Am, Jabatan Pendaftar mewartakan perubahan status kad bermula dari tempoh ini. Sistem MyAkrab turut terlibat di dalam Hari Bertemu Pelanggan Jabatan Pendaftar sekitar bulan tersebut. Pada bulan Jun 2006, Sistem MyAkrab mengambil bahagian ketika Lawatan Rasmi Canselor KUIIM dan Menteri Pengajian Tinggi ke KUIIM.
