Changed Your University Password?

If you have changed your University password since setting up the wireless network, you may need to forget the network and re-connect.

1. Open Settings
2. Touch Wi-Fi
3. Touch the arrow on the right hand side of eduroam (on iOS7+ this appears as a blue 'i' in a circle) and touch 'Forget this network'
4. Touch Forget from the dialog box
5. Go back to the Wi-Fi menu and follow the connection instructions above.
